The Senate, after deliberation, approved the list of students for the award of degrees in the 12th convocation of the Institute.

The Senate also authorized the Chairman to award Provisional degrees to all eligible graduating UG/PG/Ph.D batch of 2024 who fulfil the requirement after the convocation.

2024-57-Senate-04

Prize Winners of the 12th Convocation

The Senate was informed that in the 51st meeting, the Senate approved the revised guidelines for selecting students for Institute awards. Subsequently, in the 55th meeting of the Senate, it was decided to confer the Academic Excellence award (Gold/Silver medals) and the all-rounder award in the convocation function. The Best Project Award and Best Interdisciplinary Project Awards are to be awarded by the concerned departments/schools at their level.

It was also informed that a committee was constituted by the Institute to select meritorious awardees and the committee, by duly following the guidelines prescribed by the Senate, recommended the list of students for the Academic Excellence Award and All-Rounder of the graduating batch and is given in “**Annexure D**”. The Senate was further informed that

	<p>the respective departments will select and confer the Best Project Award and Interdisciplinary Project Award during Institute/Department function.</p> <p><i>The Senate noted that only one award is instituted for each department/school in the case of the PG program and advised the Institute to review the guidelines, taking into account the enrolment of PG students in the individual programs.</i></p> <p><i>The Senate, after deliberation, approved the list of students for conferring the “Academic Excellence Award” and “All Rounder of the Graduating Batch Award” at the 12th convocation of the Institute.</i></p>																																							
<p>2024-57-Senate-05</p>	<p>Enhancement of Intake of Ph.D. Admission Under the HTRA Category</p> <p>The Senate was informed that the approved intake of PhD admission in a year is 40 under the HTRA category, and this intake level was fixed long back when the approved faculty strength was at the level of 46. Subsequently, the approved faculty strength was increased to 113; however, the intake number of PhD students under the HTRA category still needed to be revised.</p> <p>It was also informed that the Senate prescribed the number of HTRA scholars for faculty members in the 46th Senate and in line with the prescription, the institute shall have 172 scholars under the HTRA category. Against this, only 100 scholars are on a roll. Thus, the institute is required to have 72 scholars to reach the prescribed limit. For the July 24 session, the institute has offered admission to 34 students; there will be a shortage in numbers even then.</p> <p>As scholars play a crucial role in research activities and conducting lab sessions, any shortage will affect academic- research activities. In addition, the institute is recruiting new faculty to meet the demands of the educational requirements. These new faculties also need scholars for academic research requirements.</p> <p>As the present intake level is inadequate, and its continuance will affect the research and the number of publications, with the approval of the Chairman Senate, the intake level has been enhanced to 60 students in a year under the HTRA category to meet the demands of the Institute. Further, the Institute has once again invited applications for admission to the PhD program in the July 2024 session. Accordingly, the Senate was requested to ratify the approval accorded by the Chairman Senate.</p> <p><i>The Senate, after deliberation, ratified the approval accorded by the Chairman Senate on enhancing the intake of PhD admission to 60 students in a year under the HTRA category from 2024-25 onwards. The Senate further took note of the admission process initiated once again by the Institute on account of increased intake.</i></p>

As per Regulations R.8.3, a student should have a minimum CGPA of 5.0 calculated for the courses successfully completed at the end of each semester. However, over 66 students have secured CGPA less than 5 and another 83 students have secured CGPA between 5-6 range. The Senate was intimated that the performance of these students will be communicated to all concerned parents with a request to advise their wards to improve their performance in the subsequent semester. In addition, counselling will also be provided to the students by the Faculty Advisor.

The Senate advised the Institute to place a program-wise breakup; accordingly, the program-wise students who secured less than 5 CGPA in the last semester are as under:
